PHOTOSHOP VERSION

SPREADSHEETS & CARD CONTENT

The Photoshop version of this card template leverages the power of Photoshop's Data Sets and Variables. This means that certain elements of the card template can be changed by inputting your desired information into the provided spreadsheet, saving the spreadsheet as a Tab Delimited .txt file, and then importing that Tab Delimited .txt file into Photoshop. Multiple versions of the card can be created by inputting data into the provided spreadsheet. **Using the spreadsheet is the fastest and most organized way to build a deck of cards with this template.**

For detailed information on how to create a deck of cards in which each card consists of different information and artwork, visit the link below to download our .pdf tutorial on Photoshop Data Sets and Variables. You'll want to open Tutorial 01 – Intuitive.pdf and read through Focus 03: Create Data Sets (pages 7-9) and Focus 04: Import Data Sets (pages 10-14).

TUTORIAL DOWNLOAD PAGE: <https://manifestationccs.com/tutorials/01-photoshop-variables-data-sets/>

If you have any questions about this card template feature, feel free to contact us through our [CONTACT](#) page.

To see this card's Data Sets and Variables in action: 1) Go to [Image > Apply Data Set](#), 2) Select the example Data Set in the popup window (tick/check "Preview").

TEXT ELEMENTS

CARD FRONT

- The "Text" layer group contains "Upper Title" and "Lower Title" text layers. These layers have been defined as Photoshop Variables and as such can be edited by using the provided spreadsheet.
- All text layers have Photoshop layer styles applied to them, designed to add to the aesthetic of the card template's visual theme.

CARD REAR

- The "Logo/Symbol (w/ Transparency)" layer group contains "Upper Title" and "Lower Title" text layers. Type in your preferred text and position the text to your liking. Layer Styles and effects have been applied to the "Logo/Symbol (w/ Transparency)" layer group, and will be applied to any text within the group.

FONTS

- Nebulous Content Regular: <http://www.fontspace.com/chequered-ink/nebulous-content>

ICON ELEMENTS

CARD FRONT

- The card's front template does not include default icon layers. However the front does include 12 Astrological sign layer groups (Aries, Taurus, Gemini, Cancer, Leo, Virgo, Libra, Scorpio, Sagittarius, Capricorn, Aquarius, and Pisces) that include Astrological Sign, Constellation, and Line layers. The 12 Astrological Sign layer groups have been defined as Photoshop Variables and as such can be edited by using the provided Card Front spreadsheet.

CARD REAR

- Within the "Logo/Symbol(w/Transparency)" layer group is an "Astrological Symbols" sub-group that includes 12 Astrological sign layers (Aries, Taurus, Gemini, Cancer, Leo, Virgo, Libra, Scorpio, Sagittarius, Capricorn, Aquarius, and Pisces). The 12 Astrological Sign layers have been defined as Photoshop Variables and as such can be edited by using the provided Card Rear spreadsheet.
- An "Astrological Constellations" layer group containing 12 Astrological Constellation sub-groups (Aries, Taurus, Gemini, Cancer, Leo, Virgo, Libra, Scorpio, Sagittarius, Capricorn, Aquarius, and Pisces) is also included in the Card Rear. The 12 Astrological Constellation sub-groups have been defined as Photoshop Variables and as such can be edited by using the provided Card Rear spreadsheet.
- Place single color logos/symbols containing transparency information in the "Logo/Symbol (w/ Transparency)" layer group to have the card's custom layer style applied to your logo/symbol and/or text.

ARTWORK

CARD FRONT

- Inside of the Artwork layer group is the "Artwork Placeholder" layer. The Artwork Placeholder layer consists of two 1 pixel dots positioned at the upper left and lower right corners of an invisible rectangle. This layer has been defined as a Photoshop Variable and as such can be edited by using the provided spreadsheet.
- Artwork created for this template should be sized to 517x1108 (WxH) pixels.
- **Use the included "Artwork.psd" file to prepare artwork with the right dimensions for this card template.**
- This template was designed to work well with illustrations that contain transparency (.png files), as well as illustrations that cover the entire artwork area/space (.jpg files). Illustrations that have transparency information will take advantage of the template's background.

GIMP VERSION

IMPORTING GIMP GRADIENTS

CREATE GRADIENT FOLDER / PATH / DIRECTORY

- 1) In Gimp, go to the "Edit" tab and click "Preferences".
- 2) Expand the "Folders" option by clicking the "+" symbol to the left of the "Folders" icon.
- 3) Click/Select the "Gradients" option.
- 4) Click the "New File/Directory" icon (far left icon that looks like blank paper/file)
- 5) Click the folder icon to the right of the path entry/text field to browse your computer for the folder that will host your Gimp gradient file(s) .ggr. Click "OK".
- 6) The path you selected to the folder that will host the Gimp gradient files is now added to the list of paths/directories. Tick/check your folder's path and click the "OK" button located at the bottom right of the window.

MOVING GRADIENT FILE(S)

- 1) Navigate to the "Gradients" folder of the Manifestation CCS Card Frames for Prototypes Gimp card template.
- 2) Copy or Cut the "Card-##_Gradient-##_ggr" file and paste it into your Gimp gradient folder.

TESTING GRADIENT FILE(S)

- 1) In the "Tool Options" panel click in the "Gradient" text field and type in the name of the gradient file you want to use. If you do not see the gradient file listed in the drop-down selection after typing its name in the text field, the gradient file is not located in a path/directory Gimp recognizes. Follow the instructions in the "CREATE GRADIENT FOLDER / PATH / DIRECTORY" section above to set up a Gradient Folder to house Gimp gradient files.

LAYERFX PLUGIN

TEXT ELEMENTS

CARD FRONT

- The "Text" layer group contains "Upper Title" and "Lower Title" text layers.

CARD REAR

- The "Logo/Symbol (w/ Transparency)" layer group contains "Upper Title" and "Lower Title" text layers. Type in your preferred text and position the text to your liking.

FONTS

- Nebulous Content Regular: <http://www.fontspace.com/chequered-ink/nebulous-content>

The Text in this template was designed to be viewed with effects generated by the Layer Effects Script-Fu plugin. You will need the GIMP plugin: "LayerFX" to add layer effects to text layers. Download and install the Layer FX plugin using the instructions on the [LayerFX Plugin page](#). All layer effect styling parameters can be found in the [Text & Icon Styling section](#).

ICON ELEMENTS

CARD FRONT

- The card's front template does not include default icon layers. However it does include an "Astrological Symbols & Constellations" layer group containing 12 Astrological sign sub-groups (Aries, Taurus, Gemini, Cancer, Leo, Virgo, Libra, Scorpio, Sagittarius, Capricorn, Aquarius, and Pisces), each of which hosts Astrological Symbol, and Astrological Constellation layers.

CARD REAR

- The card rear template includes an "Astrological Symbols" layer group containing 12 Astrological Symbol layers (Aries, Taurus, Gemini, Cancer, Leo, Virgo, Libra, Scorpio, Sagittarius, Capricorn, Aquarius, and Pisces).
- An "Astrological Constellations" layer group containing 12 Astrological Constellation layers (Aries, Taurus, Gemini, Cancer, Leo, Virgo, Libra, Scorpio, Sagittarius, Capricorn, Aquarius, and Pisces) is also included in the Card Rear.
- Place all logos/symbols with transparency in the "Logo/Symbol(w/ Transparency) layer for effective layer organization within the template.

ICON ELEMENTS

Icons (and Logos/Symbols) with transparency information (.png files) added to this template should be viewed with effects generated by the Layer Effects Script-Fu plugin. You will need the GIMP plugin: "LayerFX" to add layer effects to icon (and logo/symbol) layers. Download and install the Layer FX plugin using the instructions on the [LayerFX Plugin page](#). All layer effect styling parameters can be found in the [Text & Icon Styling section](#).

ARTWORK

CARD FRONT

- To add artwork to the template, open your artwork as a layer (Ctrl+Alt+O) over the "Artwork Area" layer. Right-click on the "Artwork Area" layer and select "Alpha to Selection." Right-click on your artwork's layer and select "Add Layer Mask." Make sure the "Selection" option is ticked/marked and then click the "Add" button. Your artwork is now properly masked into the card template design.
- Artwork for this template should be sized to 517x1108 (WxH) pixels. **Use the included "Artwork.xcf" file to prepare artwork with the right dimensions for this card template.**
- This template was designed to work well with illustrations that contain transparency (.png files), as well as illustrations that cover the entire artwork area/space (.jpg files). Illustrations that have transparency information will take advantage of the template's background.
